## FOR PRESIDENT IN 1888, JAMES G. BLAINE, OF MAINE.

Subject to the decision of the Republican National Convention.

"We always have the American flag above us and not below us."—James G. Blaine.

### THE FISHERIES QUESTION.

The settlement of the fisheries question is about as far off as ever. In fact present indications are to the effect that something more potent than diplomacy will have to be resorted to before the dispute is settled. Heretofore the home government has taken no hand in the seizures, but now British men-of-war are going into the ship-catching business and it is highly probable that trouble will follow. Mr. Whitney has had several men-of-war cruising around the fishing-banks as a sort of scare-crow but they don't seem to scare the Canadians worth a cent. They are alive to the fact that an American commander will not fire a gun until he has made his peace with heaven and is prepared to soar to the golden streets above. Admiral Lucé, commander of the United States naval forces in North Atlantic waters, has authorized the statement that his ships were not sent to the Gulf of St. Lawrence to prevent by force the seizure of American fishermen by the Dominion cruisers, but rather to render such moral support as the mere presence of Federal ships might afford. In the event of the seizure of an American fishing vessel for an alleged violation of the laws of the Dominion the case must be fought out, he says, in the courts.

### The Silver Dollar.

New York, August 8.—James P. Kimball, Director of the United States Mint, says: "Just at present we are not coining the silver dollar at Philadelphia, because of the new steam plant which is being put in, which necessitated the stoppage of work. There seems to have been an impression that the non-coining of the dollar was for contraction, but it is wholly on account of renewing our machinery, and just as soon as we can get to work again we will make up for lost time. But while Philadelphia is not at work on the dollars San Francisco is coining 400,000 of them to help make up the deficiency. The making of the silver dollar keeps us crowded all the time at Philadelphia, but the reason we don't have more of the coining done at other branch mints is simply because of the expense of shipping to Washington or other depository after they are made.

### The Cabinet Leaving Washington.

Chicago, August 9.—The News' Washington special says: It is doubtful whether the Cabinet can be held together beyond the present week. Bayard and Garland have already gone, the former to Rehoboth Beach, the latter to Hominy Hill, Ark. The Postmaster-General is preparing to leave for Wisconsin, where he will tarry until October. Secretary Whitney will leave for Bar Harbor the latter part of the week. Secretary Endicott will leave for his country home in Massachusetts, and Secretary Lamar will try to outblank the hay fever by a few weeks sojourn in the White Mountains. The departure of these gentlemen will leave only Secretary Fairchild to assist the President in administering the Government. In contemplating the exodus of his official advisers, the President said: "The absence of these gentlemen will produce a feeling of loneliness, but with the aid of Fairchild and the assistance of the newspaper correspondents I hope to be able to pull through."

Some tall swearing is being done by the Rozelle crowd in the vitrol throwing case at Los Angeles. Petrie's testimony regarding the affair was told in a straightforward manner and was not weakened a particle. An effort is now being made to make it appear that the liquid was thrown in Petrie's face, thereby refuting the damaging statement that Mrs. Rozelle was seated on his lap when the fiendish act was committed.

James G. Blaine, wife and daughter, are in Dublin. Blaine intends to spend some time in Ireland, as he desires to take quite a look around and examine into the condition of the country. He says that his experience, thus far, of European society has not reconciled him to the order of things on this side of the ocean. Among the institutions of Great Britain he misses the spring and nerve, characteristics of America.

President Cleveland has sent to the East Aurora Fair Association \$10 in gold as a premium for the best triplets shown at the baby exhibition to be held here in September.

### FIGHTING THE REPUBLICANS.

St. John Believes the Prohibitionists Will Yet Come to the Front.

New York, August 8th.—The World's Boston special says: Ex-Governor St. John said to our correspondent this evening: "I come to Massachusetts to deliver three addresses at Mr. Hall's Prohibition camp meeting, and when that mission is accomplished I shall then go to New York and Pennsylvania, where I am engaged to deliver several more. After that I intend to proceed to California. The Prohibition party, which cast 151,000 votes in 1881 and over 300,000 in 1885, will surely cast 1,000,000 in '88. It is marching on to victory, and will become a majority party before many years. I believe the Republican and Democratic parties must break to pieces before that time. We are fighting the Republican party now, and by its death we will build up a party of principle on its ruins. I think General Fisk, of New Jersey, will be the Prohibition candidate for President in 1888."

### THE SAN JOSE WHOOP-UP.

A Grand Rush for City Property, and Prices Booming.

SAN JOSE, August 8th.—An unprecedented excitement prevails here regarding real estate, the various offices having been crowded since eight o'clock this morning with men and women seeking lots. Although prices rose in many cases last week to the extent of fifty per cent., there has to-day been a further advance of five dollars per front foot. Property in all parts of the city is advancing in response to the sharp demand, and suburban parcels are also feeling the excitement.

### Virginia Politics.

RICHMOND, August 9.—The campaign has already fairly opened. The Democrats have taken their position and made up the issues for the fight, and the Mahone Republican State Committee meet in Petersburg to-day to determine on the policy to be pursued by that party. Prominent Republicans say that no convention will be called this year. It is unusual to call one except in years when nominations are to be made. One of Mahone's most confidential friends in the State expresses the belief that his party will confine the issues of the campaign chiefly to national questions. The most prominent among these will probably be the repeal of the internal revenue question, the Blair Educational bill, the tariff and the policy generally pursued by the Democratic Administration. John S. Wise and some of the young leaders who have followed Mahone in other campaigns will be with him again this year. It is understood that Mahone will himself take part in the approaching canvass.

The Farmers of Indiana Send Greeting to President Cleveland.

LOUISVILLE, August 9.—The following remarkable resolutions were adopted by the Farmer's Alliance of Floyd county, Indiana, at a meeting on Saturday night last. They are just made public.

Resolved, That there is no promise, either expressed or implied, by which the people of the United States must pay their President \$4,000 per month, or any other sum, while electioneering for a second term of office; therefore, we call upon President Cleveland, before starting on his pending electioneering tour through the West and South, to first write out his resignation and file it with the proper officers in Washington.

Resolved, further, That the President and Secretary of this Alliance are hereby instructed to forward a certified copy of these resolutions by registered letter to the President of the United States.

Mr. Carson's Eldest Son Murdered in Colorado.

ALAMOSA, (Col.), August 8.—A report reached here to-night from the southern part of the State that William Carson, Deputy Sheriff of Conejos county, had been brutally murdered in that valley last Thursday by Juan Vigil, a notorious character, whom he was attempting to arrest. It appears that when Carson went to serve papers on Vigil that the latter requested the officer to read them, and while doing so the outlaw snatched a revolver out of Carson's belt, with which he beat out his brains. Carson was the eldest son of the famous scout, "Kit Carson," and an influential man in this section. A posse has organized to search for the murderer, and if caught he will perhaps be lynched.

### FRANK O'BRIEN'S END.

Executed in Mexico for a Fiendish Crime.

NOGALES, (A. T.), August 6.—People in America think that executions are too swift and that the average American does not get justice. In many cases this is true, but the execution of Frank O'Brien at Hermosillo on Saturday last demonstrated that he and his friends had all the time possible to right the wrong he had committed. Many men have been executed in Mexico for offenses, but it must be said that, while a tyrannical Government is supposed to exist in Sonora and Mexico in general, there has

been a spirit of civilization in Sonora not known before Governor Torres assumed the reins of Government. The particulars of the execution of O'Brien are told as follows: He received nine shots—five in the chest, two in the shoulder, one in the left eye and a bullet through the head from the Lieutenant in command.

This penalty was for the cold-blooded murder of his traveling companion about two years ago.

### Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-sw f-ly

### What Is It

Wisdom's Robotine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and successful. S. J. HODGKINSON & CO., my 24-lyr Agents Va. St., Reno, Nev.

A bar of refined bullion valued at \$2,000 was shipped to San Francisco through Wells, Fargo & Co.'s express Tuesday evening from the Reno Reduction Works. Last evening two carloads of the crude article were sent down.

The water mills on Six-mile Canyon are still able to keep their wheels moving. The water used at the California mills helps them out. Next week, when twenty additional stamps are started, they will all be able to boom along pretty well.

THE STATE UNIVERSITY.—If our people are going to ignore the State University entirely and send their children to California, it might be turned into a candle factory or a wool scouring establishment. If there was no such institution in this State the cry would be, "there is no University in Nevada and we are forced to send our children to another State to educate them." We have the school here, but the other State gets the children. The fact of the matter is that it is not positively settled what the University will be used for. Some are in favor of a Normal school and others want it devoted to the purposes for which it was built. It was erected for the benefit of Nevada boys and girls and should be used for this purpose. If teachers desire more education, it is much easier for them to go to California and get it than it is for parents of limited means to send their children there to get learning. The institution is worthy of the patronage of our people, and ought to receive it. If Nevada's will not contribute to the welfare of their own institutions they need not expect any one else to do it for them. The penitentiary is about the only State institution that does receive recognition at the hands of the public, and it don't pay.

TO BE DISINTERRED.—The body of F. A. Ent, a pioneer of Washoe county, and for several years Postmaster at Franktown, is to be taken up and shipped to San Francisco for interment. Mr. Ent died a number of years ago and was buried in the old cemetery at Franktown. A short time ago his wife passed away in San Francisco, and was interred there. Mrs. Sadie Scott, his daughter, desires to have his remains buried beside those of her mother, hence the removal. Mr. Sanders will take up the body next week and prepare it for shipment.

A WORD OF ADVICE.—There are a large number of young men in Reno who are just crossing the threshold of manhood, all of whom must play their part in life. All of these young people must sooner or later settle down in the world to do battle, and the most essential thing for them to have as a starter, is a home. Property is selling cheap, and the saving of a few dollars each week will soon amount to a town lot. Save your money boys, and place it where it will do you some good in after life. A lot is the best savings bank in the world for you, and even the increase in value will pay good interest on the investment. The man who is possessed of a good home and energy, need never be afraid to contract the responsibilities of married life, and he who has the thrift to secure a home, can be depended upon to care for the girl who places her future in his keeping.

LAYING THE CORNER STONE.—To-day the corner stone of Tom Hymer's new stable will be laid. Tom will officiate in person during this interesting procedure, and after the marble slab which is to be used, is put in its resting place, Tom will make a few appropriate remarks regarding the past and future of the Riverside town. He says that every such stone that is placed under a building here is not only an important portion of the structure under which it rests, but is also the corner stone of the future prosperity of the metropolis of Washoe. The building is to be well arranged and kept in the finest order. It will be 96 feet deep by 50 in width, and the front portion used entirely for carriages, the stock being kept in the back portion. When it is completed it will be the finest stable in Western Nevada.

HOT SPRINGS.—Nearly every train carries people who are going to some hot spring for the benefit of their health. As is natural the spring farthest away is regarded the best, and thither they go. Laughton's Springs above Reno possess all the medicinal qualities that gives popularity to the ones farther off, but it lacks distance that "brings enchantment to the view." If those who are in search of watering places would pass a few weeks at Laughton's they would find that the benefits they desire would be found there. Some day these springs will become popular for their health-giving properties and will be a great resort for tourists. Capital, judiciously invested, would soon make these springs attractive and a source of great benefit to the surrounding country.

NAVAJO ELECTION.—At a meeting of the stockholders of the Navajo Mining Company, Tuesday afternoon in San Francisco, the following officers were elected for the ensuing year: E. W. Scott, President; F. A. Redin, Vice President; T. J. Shakelford and H. H. Ritcher, Trustees, and J. W. Pew, Secretary. A balance of \$7,612 was reported in the treasury.

TAN ELECTRIC LIGHT.—The improvements made by the Electric Light Company have required more time and greater expense than was calculated upon. The ground where they run their ditch and tail race was nothing but a nest of boulders from the top to the bottom. Had this not been the case the improvements would have been completed long ago.

PINE-NUT DANCE.—Pine-nuts are said by the Indians to be very plentiful in the Table Mountain range this year, and the Pintos will thank the Great Spirit for the same by having a pine-nut dance at Lovelocks in a week or two. After the dance they will go to the pine-nut country to gather the crop. So says the Silver State.

NOISING AROUND.—It is rumored that the Hash House Superintendent of the Central Pacific, has his eye on the magnificent business of Parry & Fitzgerald of Reno. Those gentlemen furnish the best grub on the line of the road, and it would be a traveling public calamity to lose them. So says the Evening Report.

The following note was received by Nasby last night:

Referring to our circular in regard to the adoption of the new Copy Books by your State Board of Education, we would say that we will pay the freight both ways instead of compelling you to pay it as we erroneously advised you.

Very Respectfully,  
CONNINGHAM, CUMMIS & WELCH.

MORE BOARDERS.—Six arrests were made Tuesday night. One for petit larceny, two for vagrancy and three for disturbing the peace. Two Indians were also arrested for fighting and will pass ten days in the shady precincts of the County Jail. As usual whisky was the cause of the trouble.

KENTUCK SHUT DOWN.—The Evening Report says the Kentucky mine shut down last week on account of lack of water in the Carson river. All the workmen are thrown out of employment. It is expected to start up again about the 1st of September.

JUSTICE COURT.—In the Italian case yesterday before Justice Young a verdict of acquittal was rendered, with a recommendation to the Court to waive the prosecuting witness with the co-accused, which was done.

## CON. CAL. AND VIRGINIA.

## Official Statement of Ore Worked and Bullion Yield for July.

The Enterprise says the official statement of the ore and bullion produced by the Consolidated California and Virginia mine during the fiscal month of July has just been received, and is as follows:

There were crushed at the Morgan mill 4,360 tons of ore, yielding bullion of the assay value of \$132,522 90, of which \$59,790 02 was gold and \$72,732 88 was silver. The yield in bullion per ton was \$30 39, and the average assay value per ton battery samples was \$36 29. There were crushed at the Eureka mill 5,000 tons of ore yielding bullion of the assay value of \$127,135 32, of which \$53,877 72 was gold and \$73,257 60 was silver. The average yield of bullion per ton was \$25 42, and the average assay value of the ore per ton for battery samples was \$59 23. There were worked at the California mill 1,510 tons of ore, yielding bullion valued at \$31,475 49, of which \$8,981 57 was gold and \$22,493 92 was silver. The yield in bullion per ton was \$20 84, and the assay value of the ore per ton for battery samples was \$22 88. The total bullion product for July was \$291,133 71.

THE TOWN OF LUNDY IN ASHES.—A dispatch from Bridgeport, Mono county, Cal., dated August 7, says: It is reported this evening that all of the town of Lundy was burned down, except three or four buildings, Rosenwald, Coblentz & Co.'s store, the brewery, Lake House and Montrose's Mills. No one was injured, so far as heard.

Later—A dispatch received from Bridgeport Tuesday night says: Every one was burned out in the heart of the town. A number of families are left destitute. The fire originated in the May Lundy Hotel, but how no one knows; it was probably accidental. Mr. Burkham's family got all of the furniture out of the May Lundy Hotel, but the sparks got among the furniture while they were busy helping others, and nothing but a sewing machine was saved. A Mr. Troy, whose insurance run out some two weeks ago, and was not renewed, lost his restaurant, store and dwelling. He had just got in a stock of goods not three days before. Some barley was all that escaped being burned. The school teacher escaped with only her night clothes, everything else being burned. Out of all the property only two sewing machines were saved. A large portion of the families are housed in the old Lake House, about half a mile from town. The mines and mills are all right, being on the outskirts. Subscriptions are being gotten up for the sufferers.

EDUCATED TRAMPS.—Some of the vagrants that are brought before Justice Young, are men who have had advantages in early life, and, in some instances, men of cultivation, capable of making a livelihood anywhere. Why such people, endowed with ability, follow the aimless, degrading life of tramps, is a mystery. A few days ago, one was brought before him who was a penman of the highest order. Such an artist could do well in any community, if it was not for his disposition to follow a life of idleness. There is some excuse for those who are deformed or crippled to beg their way through the world, but some means should be devised to compel healthy parasites, in the shape of able bodied men, to renounce their calling and earn their living.

STATE FAIR PROPOSALS WANTED.—C. H. Stoddard, Secretary of the Nevada State Agricultural Society, advertises for proposals for the following privileges at the coming Nevada State Fair: Restaurant and lunch stand at the grounds; cigar stand at the grounds; ice cream, candy and soda water at the Pavilion; fruit and candy at the grounds; bar privilege at grounds, and hay and grain at grounds. All privileges must be paid for on or before September 10th. Sealed proposals will also be received for furnishing music, a brass band of not less than eight pieces. The Board reserves the right to reject any and all bids.

DISTRICT COURT.—The action commenced against the Calahan Brothers for an alleged contempt of Court, growing out of an injunction issued in the suit of Smith vs. Logan some years ago, was called in the District Court yesterday morning, and it being apparent that certain preliminary questions would have to be settled before the main issues could be determined, the matter was continued until 10 o'clock to-day. The argument in the North Truckee water suit will be heard this afternoon.

A GOOD SIGN.—Notwithstanding that a great number of private residences have been built in Reno this season, there is not a vacant house in town. Inquiry is made every day for houses, but none are to be found. Every resident in this place is employed in some capacity, and all new acquisitions to our population are engaged in some pursuit. If someone would purchase a tract of land and erect cottages upon it, every one of them would soon be occupied.

LOUISIANA LOTTERY DRAWINGS.—Number 60,255 won the capital prize in the Louisiana lottery; 29,146 won the second prize; 46,856, the third prize; 48,425 won \$10,000; 49,521 won the same amount; numbers 1,890, 21,991, 72,405, and 83,610 each won \$5,000.

Ladies wishing to compete for prizes will please send name to Secretary, endorsed by two members of the Society.

## PARKER'S MAP OF NEVADA.

## PARKER'S NEW MAP OF NEVADA.

—THIS NEW AND BEAUTIFUL—

## MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to make it being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.

John W. Parker,  
Reno, Nevada.
